Community Meeting:

On Mondays, there will be a focus on community building. Teachers will implement lesson plans for this time designed by Student Services focusing on Social Emotional Learning and Habits of Success. Some weeks will be in advisory groups and some weeks will be whole grade level, arts major or school level structures (HS/MS).

Advisory Lab:

Most of the time in Advisory lab, students will meet individually or in small groups with their faculty advisors. During lab time, Advisors will lead students in setting and tracking progress on goals, conduct check-ins involving looking at progress on the PLP, in arts classes and SEL wellness checks. In addition, Advisors will approve focus areas and support note taking and study habit skills. Advisors will be the primary contact home to families and will be responsible for tracking student progress. Advisory groups are organized into small pods of students with a common grade level and art major.
